

Invite Friends & Family

Text or email your enrollment link directly from the RaiseRight app! Participants can send their own invites, too, to help expand your program and overall earning potential.

How it works:

1. Download the RaiseRight mobile app and log in.
2. Navigate to Account > Settings > Invite Friends & Family.
3. Send enrollment links directly to families via email or text message.
4. Recipients can click or tap the link in the message to enroll and start earning.
